Web Developer

Adan Web

Jan 2024 – Present

London, UK

As a seasoned web developer, I've successfully designed and implemented user-friendly websites that blend creativity with functionality. My expertise lies in front-end development using HTML, CSS, and JavaScript, as well as back-end technologies like Node.js and Express. I've collaborated on various projects, ensuring responsive designs, seamless navigation, and optimal performance. Additionally, my skills extend to:

- **Search Engine Optimization (SEO):** I've consistently improved website visibility by implementing effective SEO strategies, including keyword research, on-page optimization, and link building.
 - **E-commerce Solutions:** I've developed e-commerce platforms, integrating payment gateways, inventory management, and user-friendly shopping carts. My understanding of customer behavior and conversion optimization has contributed to successful online sales.
- My commitment to staying updated with industry trends and my passion for creating exceptional user experiences drive my success in this field.
